

SIMON YAO
STUDIO

watch me grow

Your baby changes so much during the first year. Each phase of development is an opportunity to capture enduring memories and important milestones. Join our Watch Me Grow Program and enjoy the following special offers:

The Beginning - Newborn to 3 months

A wonderful time to capture all the details: the little hands, fingers, toes and the very special bond between a new born and the parents.

The Moment - 6 months

A time to highlight the dawn of your baby's independence. Your child should be able to sit independently for this session.

The Freedom - 1 year

Celebrate the essence of your baby's personality during this fun, active time.

As a member of our Watch Me Grow Program, receive 50% off* the regular creation fee with Simon Yao, One complimentary 8x10 portrait unit from each session with order, and One 5x7 custom Storyboard upon program completion. Parents and siblings are welcome to join all sessions. All three sessions must be for the same child. Orders must be placed on the day of presentation.

*A portrait creation fee for all three sessions is required to initiate the program
